### **About Your Policy**

Mechanical **Breakdown** Insurance (MBI) protects **you** against the cost of sudden and unforeseen **breakdown** of **your vehicle**.

This document is the policy wording for Smart Cover – **our** extensive MBI cover for a wide range of **vehicle components**.

**Your** policy is a contract between **you** and **us** and is comprised of:

- Your online application or application form;
- · Your policy wording; and
- · Your current policy schedule; and
- Any other document issued by us, which may vary or modify the above documents.

Please keep these documents safe and read them together.

It is important **you** read **your** policy in full and understand **your** benefits and the terms and conditions of **your** policy, including what **your** insurance covers – and what it doesn't. If there is anything **you** don't understand, or if **you** have any questions, please contact **us**.

Your vehicle details are stated on your policy schedule. If they are incorrect in any way, including vehicle make, model, year or odometer reading, you may not qualify for the extent of cover you have selected. It is important that you check your policy schedule and advise us immediately if any details are incorrect or need updating.

### **Defined Words**

If a word is shown in **bold** it has a special meaning. For example, **we**, **us**, or **our** means DPL Insurance Limited. There is a list of these words and their meanings in the Definitions section of this document.

## **Duty Of Disclosure**

You have a legal duty of disclosure when you apply for insurance, make changes to your policy and when making a claim, to tell us everything that a prudent insurer would want to take into account in deciding:

- Whether to issue your policy;
- The applicable terms and conditions of your policy;
- The amount of **your** premium;
- Whether any alterations to your policy will be made:
- Whether **your** policy will respond to **your** claim.

If you breach the duty of disclosure, we may void your policy from the start of the period of insurance and refund any premiums you have paid us.

### What You Are Insured For

Your current policy schedule will show the cover level, any applicable additional covers and benefits for your vehicle based on its make, model, category, age and odometer reading at the start of the period of insurance and any conditions we imposed on your policy.

For **electric vehicles** the **Electric Vehicle** Package is added to this cover.

If your vehicle suffers a breakdown of a covered component during the period of insurance while in New Zealand and you have complied with the terms of this policy, we will settle your claim using an authorised repairer to repair your vehicle with used, new or reconditioned components that are comparable to the condition of your vehicle at the time the breakdown occurs.

The most we will pay for any one claim under your policy, is the maximum claim entitlement for your cover and the additional benefits, less the excess stated on your policy schedule.

Where we consider your vehicle is uneconomic to repair, we will settle the claim as a total loss and pay you the market value of your vehicle at the date of claim, or the maximum claim entitlement as stated on your policy schedule, whichever is lower, less any excess. If we settle the claim as a total loss then the period of insurance ends.

The most we will pay for the total of all claims in one period of insurance under this policy is limited to the value of your vehicle as stated on your policy schedule, or the market value of your vehicle at the start of the period of insurance, whichever is lower, less any excess.

# **Electric Vehicle Package**

For **electric vehicles** the **Electric Vehicle** Package is added to **your** cover and the following manufacturer specified and factory fitted **components** are covered under **your** policy:

- Auxiliary engine and drive unit (inverter); and
- Dual charger and electric vehicle battery.

We will only pay for one electric vehicle battery replacement in one period of insurance.

The maximum contribution we will pay towards repair or replacement of an electric vehicle battery, regardless of the policy limit, depends on your vehicle's age at the time of the claim and is shown below, less the excess stated on your policy schedule:

- Up to 10 years: \$5,000.
- Over 10 years: \$2,500.

If your electric vehicle requires towing it must be transported using a flatbed tow-truck.

### **Additional Benefits**

These additional benefits apply if **you** have a claim accepted under **your** policy. The applicable additional benefits and the total maximum amount of the additional benefits **we** will pay are shown on **your policy schedule**.

### **Repatriation Costs**

In the event of a **breakdown** that occurs more than 100 km from **your** normal residence and the repair of **your vehicle** by an **authorised repairer** exceeds 24 consecutive hours, **we** will reimburse **you** the reasonable repatriation costs for **your vehicle** to **your** normal residence or another location convenient to you, whichever is closer, up to \$250 per claim.

### Accommodation And Return Home Travel

In the event of a **breakdown** that occurs more than 100 km from **your** normal residence and the repair of **your vehicle** by an **authorised repairer** exceeds 24 consecutive hours, **we** will reimburse **you** the reasonable costs for accommodation, rental car hire or return home travel, up to \$500 per claim.

#### Roadside Assistance

Your vehicle is eligible for roadside assistance 24 hours a day, 7 days a week, 365 days a year, in the North Island, Waiheke Island and South Island only. Roadside assistance is covered by AA Roadservice, provided and administered by The New Zealand Automobile Association Inc. on our behalf. Please refer to the AA Roadservice Cover section of this document for details.
